Lösungen

Aufgabe 1.)

A visual equation using dice faces. The first die shows 6 dots (two columns of three), the second shows 2 dots (top-right and bottom-left), and the third shows 4 dots (two columns of two). They are followed by a plus sign, an equals sign, and a box containing the number 12.

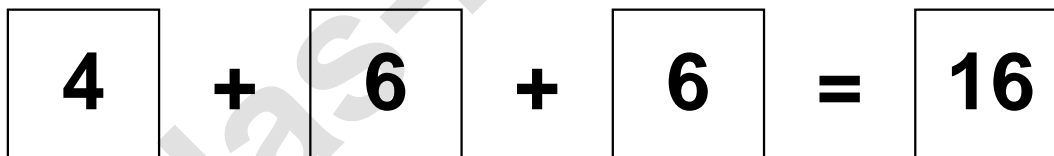

A numerical equation: a box with the number 6, followed by a plus sign, a box with the number 2, followed by a plus sign, a box with the number 4, followed by an equals sign, and a box with the number 12.

Aufgabe 2.)

A visual equation using dice faces. The first die shows 4 dots (two columns of two), the second shows 6 dots (two columns of three), and the third shows 6 dots (two columns of three). They are followed by a plus sign, an equals sign, and a box containing the number 16.

A numerical equation: a box with the number 4, followed by a plus sign, a box with the number 6, followed by a plus sign, a box with the number 6, followed by an equals sign, and a box with the number 16.
