Lösungen

Aufgabe 1.)

A visual equation using dice faces. The first die shows 6 dots (two columns of three), the second shows 5 dots (four in a square, one in the center), and the third shows 5 dots (four in a square, one in the center). They are followed by a plus sign, an equals sign, and a box containing the number 16.

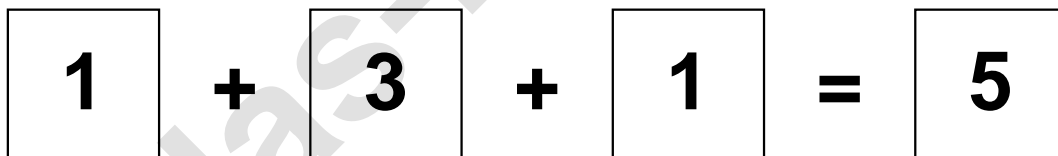

A numerical equation: a box with the number 6, followed by a plus sign, a box with the number 5, followed by a plus sign, a box with the number 5, followed by an equals sign, and a box with the number 16.

Aufgabe 2.)

A visual equation using dice faces. The first die shows 1 dot (center), the second shows 3 dots (diagonal), and the third shows 1 dot (center). They are followed by a plus sign, an equals sign, and a box containing the number 5.

A numerical equation: a box with the number 1, followed by a plus sign, a box with the number 3, followed by a plus sign, a box with the number 1, followed by an equals sign, and a box with the number 5.
