-------	---------	--------

Aufgabe 1.)

Zähle die Punkte auf den Würfeln und addiere.

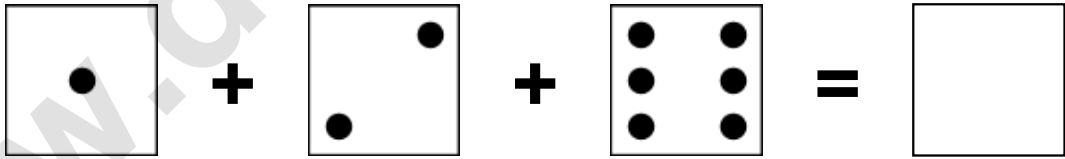

$4 + 5 + 3 = \square$

$\square + \square + \square = \square$

Aufgabe 2.)

Zähle die Punkte auf den Würfeln und addiere.

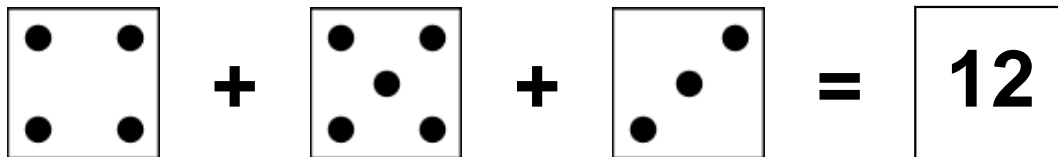

$1 + 2 + 6 = \square$

$\square + \square + \square = \square$

Aufgaben rechnen mit Bildern. Der Würfel.
Ergebnisse im Zahlenbereich bis 16.

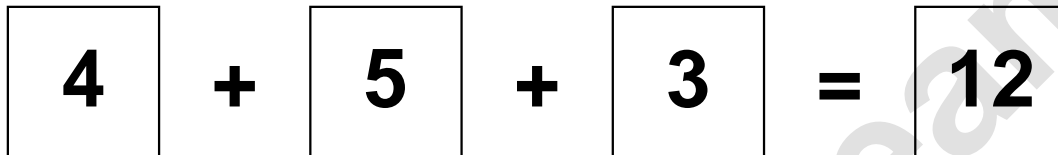

Lösungen

Aufgabe 1.)

A visual equation using dice faces. The first square shows 4 dots (two on the left, two on the right). The second square shows 5 dots (four in a square, one in the center). The third square shows 3 dots (one on the left, one in the center, one on the right). The result square shows the number 12.

$$4 + 5 + 3 = 12$$

A numerical equation using boxes. The first box contains the number 4, the second 5, the third 3, and the final box contains the number 12.

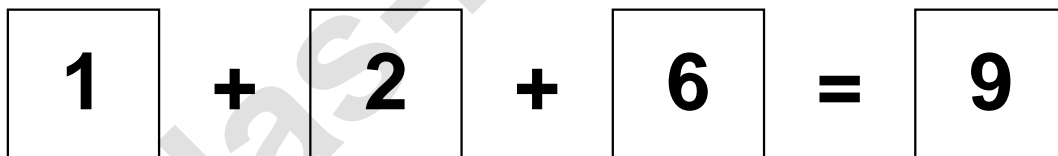

$$4 + 5 + 3 = 12$$

Aufgabe 2.)

A visual equation using dice faces. The first square shows 1 dot (in the center). The second square shows 2 dots (one on the left, one on the right). The third square shows 6 dots (two on the left, two on the right, two in the center). The result square shows the number 9.

$$1 + 2 + 6 = 9$$

A numerical equation using boxes. The first box contains the number 1, the second 2, the third 6, and the final box contains the number 9.

$$1 + 2 + 6 = 9$$
